

For Immediate Release

**SCLogic and Vanderbilt University to Host Workshop at MAILCOM in Atlantic City on May 13, 2010**

Workshop will address issues mail centers should consider when automating package tracking.

ANNAPOLIS, MD April 29, 2010 — SCLogic, a leading provider of mobile enterprise package tracking software systems, today announced that mailing industry experts Bruce Little, VP of SCLogic, and Mickey Anglea, Vanderbilt University Postmaster, will host a workshop entitled *Key Issues to Consider for Automating Package Tracking*.

Vanderbilt University's (VU) Mail Services reduced lost packages by 100% and freed up two FTE's by automating its receiving and delivery operation. The workshop will detail from the vendor and client perspective how VU automated their large scale mail and package tracking process.

About Bruce Little

As Vice President of Emerging Markets, Bruce is responsible for developing international business as well as managing channel partners. He has over 20 years of experience in the mail and package tracking industry, including owning his own business, MBL Data Systems. Bruce joined the SCLogic team in 1999 as the Vice President of Channels and has also held the titles of Vice President of Sales and General Manager before becoming the Vice President of Emerging Markets.

About Mickey Anglea

As Postmaster for Vanderbilt University, Mickey is responsible for overseeing 15 full-time employees, six student employees, two Contract Postal Units, two locations, and distributing the 10,000 packages per month that are received to 12,000 students, 7,000 faculty and staff. Mickey has 11 years experience managing corporate mail centers and logistics for Shoney's Inc. and Captain D's Seafood LLC. Mickey teamed up with Vanderbilt University in 2007.

About SCLogic

Founded in 1996 by Michael B. Saldi, SCLogic is a leading provider of innovative mobile enterprise tracking software systems that leverage the latest barcode scanning, printing, mobile computing and wireless technologies.
