

Bruce E. Little of SCLogic to speak at NPF March 20-23, 2016 in Nashville, TN

ANNAPOLIS, MD March 18, 2016 — SCLogic, a leading provider of campus logistics software, announced today that mailing industry expert Bruce E. Little, Vice President of SCLogic, will host the following seminars at NPF 2016:

Period 4: Cloud Computing in the Mail Center

In today's highly competitive and digital environment, organizations are exploring possible ways to improve accountability and increase efficiency by adapting a cloud environment. Is the cloud secure? Is it reliable? Will IT ever approve a venture like that? Learn the answers to these questions and why leading organizations are using and trusting cloud computing in their Mail Center.

Sunday, March 20, 2016, 1:30-2:30PM

Period 8: Leveraging Technology for the 21st Century Mail Center

10 years ago most mailrooms were still tracking packages by hand. As the demands of mail centers developed, so have the package tracking systems that help support them. Attend this workshop to learn how Vanderbilt University went from tracking packages by hand to implementing a large scale package tracking and locker system complete with address forwarding and virtual mailboxes.

Monday, March 21, 2016 1:30-2:30 PM

About Bruce E. Little

As Vice President of Emerging Markets, Bruce is responsible for developing international business as well as managing channel partners. He has over 20 years of experience in the mail and package tracking industry, including owning his own business, MBL Data Systems. Bruce joined the SCLogic team in 1999 as the Vice President of Channels and has also held the titles of Vice President of Sales and General Manager before becoming the Vice President of Emerging Markets. Bruce has presented at many industry conferences such as MAILCOM, NPF and NACUMS.
